

Gunster Strategies Worldwide Partners with Chapman University on Internship Program

August 22, 2018 (Washington, D.C. and Orange, Calif.) – Gunster Strategies Worldwide, the award-winning public affairs firm specializing in issue advocacy, has created a partnership with Chapman University to establish an internship and mentorship program designed to meaningfully connect and immerse Chapman students with real-world, hands-on experience, working closely with Gunster Strategies staff members on a selection of campaigns.

“Chapman’s goal to make students’ education personal, relevant, and engaged in the larger world is perfectly aligned with Gunster Strategies’ goal of providing world-class issue advocacy to the groups with which we work,” Gunster Strategies President Jonathan Stember said. “We look forward to being part of a talent development pipeline between Chapman and the wider ecosystem of public affairs and contributions to regional and global issue advocacy.”

The university has matched more than a half-dozen students and recent Chapman graduates as potential fits for this new internship partnership, with final decisions being made in time for students to begin contributing starting with the fall semester of the 2018-2019 school year.

“At Chapman, we pride ourselves on preparing students to hit the ground running after graduation,” Chapman University President Daniele Struppa said. “Our partnership with Gunster Strategies opens up a new world of opportunity for our students to get invaluable hands-on professional experience.”
